to be **UL Validated**

THERE'S ONLY 1 STERNO®

A snapshot of our **environmental endorsements & certifications**

PRODUCT MEETS THE CHEMICAL
AND PARTICLE EMISSIONS
REQUIREMENTS FOR CHAFING
FUELS FOR RESIDENTIAL AND
COMMERCIAL USE (UL 2997) UL
COM/ECV

UL VALIDATION: Not all chafing fuels are alike. With this new validation, customers know that they are getting a safe and clean burning product.

GREEN RESTAURANT ASSOCIATION: Every Sterno product bearing the GRA logo has been vetted for its environmental accuracy and represents the highest level of GRA's environmental standards.

USDA CERTIFIED BIOBASED PRODUCT: This accreditation recognizes products with biobased content – meaning the ingredients come from renewable biological sources.

SUSTAINABLE FORESTRY INITIATIVE: The majority of our corrugate packaging partners practice Sustainable Forest Management – ensuring cut trees are replaced with seedlings that eventually grow into mature trees.

At Sterno Products we are serious about protecting our planet and committed to taking the lead in providing consumers with sustainable products for food warming, portable cooking, and ambient lighting.

We carefully manage every phase of sourcing, production, packaging, distribution, use, and recycling so that negative impacts on the environment are minimized.

Ultimately, our goal is to get as close to a 'closed-loop' lifecycle as possible, in which the majority of the elements that go into the creation of our products are remanufactured, recycled, or reused rather than discarded.

OUR *green* PRODUCTS

Choose from our broad selection of green products to fit your portable food warming needs.

20612

Sterno Green Ethanol Gel

- Burns 45 hours
- Industry's top-choice for over 100 years
